## December 2017

### A Message from the GM

It's hard to believe another year is almost gone! Time has flown by. I would like to thank everyone for such a tremendous year. We were truly able to accomplish so much; new sprinkler heads, new furniture both for Redfield's and the Patio, new tables, new TV for Terrace Room, new equipment for the golf course, retired the Special Assessment District Debt and much more behind the scenes. This was all possible based on your support through the Adopt a Hole Sprinkler Program, Biggest Little Cup Tournament and new member sponsorship. We raised over \$120,000 in the two big member events but we were also able to maintain the current membership level which helped support the final county payments of over \$250,000 and provided for the additional funding needed for patio furniture and course equipment. From a golf course and clubhouse standpoint we are in great shape to start 2018. We need your help to continue the push for new members to ensure we can continue with more club and golf course improvements in 2018. Please see Walsh and sponsor your friends today. We have a fantastic program in place to allow them to join you at the club now.

If you haven't already done so be sure to sign up for any of our upcoming holiday events, most are almost sold out! I look forward to seeing you all around the clubhouse and want to wish you all a Merry Christmas and Happy New Year!

Thank you for your support and thank you for being a member!

Sincerely,

*Jayson Petersen*

*General Manager*

# Course Update

With the year coming to an end, it is always useful to reflect on the past season's triumphs and failures, and what we learned from them. So what went right? The Adopt-a-hole sprinkler head replacement in fairways has to be the highlight of the season. We're 3/4's of the way going back through them raising and leveling them for the best possible irrigation coverage. The naming of all the holes is pretty cool, too. I'd love to know the meaning of some of the names chosen. This Fall's gypsum application was major. For at least 10 years, no gypsum has been applied to the fairways and roughs. Gypsum is so beneficial to the quality of our soils and turf, including ph adjustment, sodium flushing, and water retention and penetration. We've committed to at least one large gypsum application per season going forward. The addition of a sixth irrigation pump to bring our pumping capacity to proper volumes and pressures really started showing its benefits right away. In some cases we had to back down the pressure regulating valves out on the course to adjust to the regained pressures. A special thanks to Mr. Banners and Mr. Blanke for their help on enlarging the pump house roof opening, so we could get the new pump installed. Our adaption of white poles to entry and exit locations for carts was successful and will only get better next season. Bunker maintenance improved for a couple months and the addition of all new rakes donated by Mr. Fumare was a bonus. Thank you, sir!

So, I guess the list of things to improve on is a little longer, but that's ok, if we learn from our missteps. Generally, the problems in the Spring centered around just not having enough staff to properly maintain the course, have any kind of bunker maintenance, and keep up on rough mowing. We will do our best to be fully staffed much earlier in the season with a properly trained crew. With the addition next season of another large area rough mower, we will be able to keep our roughs mowed and under control. After the wet Winter and Spring, we allowed the course to dry out too much in an attempt at saving on our water bills, but it backfired on a poor initial fertilization of the course and sealed off many areas not allowing water penetration, resulting in increased number of bare spots in fairways. As of this Fall, we are on full attack mode to eliminate all bare areas with sod and seed. This dry period was also compounded by a too late of a start-up of our acid and wetting agent injection program through our irrigation system. We will get that program started in April, rather than July. Another attempt at budget savings, we went with a less than desirable quick-release fertilizer in the roughs and on tees, causing rapid out-of-control growth. Going forward, nothing but the best slow release, long-term fertilizers will be used.

A little bit on Winter course care... When there's no snow cover and the turf isn't frosted over, we allow play during the winter months. Not all courses with our kind of Winters and at our elevation allow this, due to the damage caused. Please note that all divots taken now will not recover until April. That's why we encourage all range activity to be done on the supplied mats. We are considering purchasing mats for par 3's, as well. The upper range tee currently has no mats, but we would encourage the use of fairway metals only up there during the Winter. When the wind is howling at over 20 mph, we lay the flagpoles down on the greens next to the cups to save on destruction of our wonderfully expensive flagpoles. Please don't put them back in the cup, or they will be damaged or destroyed by the winds. Frost delays are for a reason - driving and walking on frosted turf does damage to the crown of the turf plant. When a frost delay occurs, and we are scheduled to mow greens, we need an extra half hour or so of delay, even when the frost is gone, in order to get ahead of play. Our courses stay fairly dry and accessible to cart traffic during the winter months, but when it is too wet or frozen for carts, please keep them on the paths when designated. Our view on sledding, skiing, 4-wheeling, or snowmobiling when there's snow cover on the courses, is to totally discourage all that type of activity due to damage caused. And we would hope all such activities observed would be immediately reported to the golf shop or HOA security.

Have a warm and safe winter, and we'll see you in the Spring...

Jerry L. Mathews, CGCS  
Certified Golf Course Superintendent

## Meet our New Addition to our Family !

Cassie Pete is originally from Washington State, but moved to sunny northern NV ten years ago after graduating from the University of Washington in Seattle as a Chick Evans Caddie Scholar. She has been in the events and golf industries most of her life and is excited to get settled in at The Club as the Director of Events and Tournament Sales. In her free time, she likes to spend time exploring the outdoors with her husband and four dogs.

Director of Outside Sales
